Welcome to the landing page for the ESA2025 Movement Ecology Hackathon: A dingo case study!

This workshop was organised by members of the Ecological Society of Australia's **Movement Ecology Special Interest Network Special Interest Network (MoveSIN)**. You can view the website of the MoveSIN [here](#), which has a sign-up form, and you can check out the listing on the ESA website [here](#).

To get started with the materials for this workshop, please visit the [Getting Started](#) page.
